

REGISTRATION FORM

Objective: To develop a registration form using at least 10 fields and a submit button by applying following validations.

- a. All fields are mandatory
- b. Password and Confirm Password must match.
- c. Mobile Number must be of exactly 10 digits.
- d. Email id must be in regular format.

Theory: In this practical we have prepared a web page, that displays the registration form, satisfying following validations, mentioned above. In this we have also used javascript for applying the validations .

Output:

Registration Form	
Fill this registration form to continue	
User Name	<input type="text" value="User Name"/>
Password	<input type="text" value="Password"/>
Confirm Password	<input type="text" value="Confirm Password"/>
Gender	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> other
Hobbies	<input type="checkbox"/> Playing <input type="checkbox"/> Reading
Highest Qualification	<input type="text" value="Phd"/>
Enter Date of birth	<input type="text" value="dd-mm-yyyy"/>
e-mail	<input type="text" value="e-mail address"/>
Mobile Number	<input type="text" value="Number"/>
Address	<input type="text"/>
About Yourself	<input type="text" value="enter about yourself"/>
<input type="button" value="Apply Now"/>
