Objective: To create a web page that displays the information of top five IT Organizations in Tabular structure.

Theory: In this web page we get to know about the Top five companies with their name, rank , CEO's name and photographs and linked website of that company also.

In this project I have learned that to give the information about top IT companies this is the more convenient way of presenting the basic information of that companies instead of writing the text.

Output:

Top 5 Companies

Rank	Name of the organisation	CEO	Photograph	link to the website
1	Microsoft	Satya Nadella		click here to visit Microsoft
2	IBM	Arvind Krishna		click here to visit IBM
3	Accenture	Julie Sweet		click here to visit Accenture
4	Oracle	Safra Catz		click here to visit oracle
4	Amazon	Andy Jassy		click here to visit Amazon
